**Dear Commissioner**

The undersigned, Gabriele Boehm-Wohnhas, make the following statement in support of the accompanying petition to correct my name as one of the inventors from "Gabriele Wohnhas" to my legal name -Gabriele Boehm-Wohnhas-.

I am one of the one of the inventors, along with Andreas Mroncz, of the subject matter claimed in the above-identified patent application which is the national stage in the United States of International Application No. PCT/DE2005/000029 filed January 12, 2005.

During the filing phase of the International Application, I was identified as an inventor with the name "Gabriele Wohnhas" as I am the wife of Mr. Stefan Wohnhas. When the national

stage was entered in the United States, I also signed as one of the inventors a Declaration and Power of Attorney for Patent Application and an Assignment to Medi-Globe GmbH under the name "Gabriele Wohnhas." The Declaration and Power of Attorney was filed July 6, 2006 and the Assignment was recorded that same day at Reel 018051, Frame 0709.

Although I am married to Mr. Stefan Wohnhas, my maiden name Gabriele Boehm is still part of my legal name. It has been brought to my attention that I should have been identified with and signed the Declaration and Power of Attorney and the Assignment under my legal name -- Gabriele Boehm-Wohnhas -- rather than the name "Gabriele Wohnhas".

Accordingly, it is respectfully requested that my name as an inventor be corrected in the records for the above-identified application to my legal name - Gabriele Boehm-Wohnhas-.

I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under section 1001 of Title 18 of the United States Code, and that such willful false statements may jeopardize the validity of the application or any patent issuing thereon.
